

Integrity-SI Fusion System – Physician Preference Evaluation (PPE) Form
 Please complete and email to quality@osteocentric.com

Date of Surgery: _____ Patient ID (last 4 digits): _____

Patient Age: _____ Patient Gender: M F

Full Name of Surgeon: _____

Hospital/Facility/Location: _____

	Type of Surgery: (please circle)	Unilateral	Left	Primary
		Bilateral	Right	Revision
RIGHT	Primary Implant Size/Length:	10mm x _____	Secondary Implant Length:	6.5mm x _____
		12mm x _____		
LEFT	Primary Implant Size/Length:	10mm x _____	Secondary Implant Length:	6.5mm x _____
		12mm x _____		

For ratings questions, please use the following scale:

1	2	3	4	5
Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree

1. **Guidewire** placement via fluoro imaging was straightforward: 1 2 3 4 5

Comments:

2. Were the **Stabilizing Pins** utilized to secure the 24mm Cannula in place? Yes No

3. Did the **Stabilizing Pins** perform as expected? Yes No

4. Which Gauge was utilized to determine implant length? **Primary Depth Gauge** **Length Gauge**

5. Did the Gauge perform as expected? Yes No

6. Was the first drill advanced to correspond to full implant depth? Yes No

7. How was the **12mm Drill** depth achieved? **Fluoro Visualization** **Tactile Feedback** **Both**

8. Was the **12mm Sleeve** height adjusted during this second drill step? Yes No

9. Was the SI Joint decorticated using the **BladeX Instrument**? Yes No
10. **BladeX Instrument** was effective for decortication: 1 2 3 4 5
If not utilized, please comment:
11. Was bone graft packed into the joint prior to implant placement? Yes No
12. The **Graft Tube and Ram** were effective for graft placement: 1 2 3 4 5
13. A **Tap** was used prior to implant placement: Yes No
14. The primary implant **Hex Driver** was effective for implant placement: 1 2 3 4 5
15. During primary implant placement, was joint compression perceived? Yes No
16. The primary implant engaged the sacral body effectively: 1 2 3 4 5
Please comment:
17. Was a second 6.5mm implant utilized for additional joint stabilization? Yes No
Please comment:
18. If yes, was the **2.0mm Wire Guide** utilized? Yes No
19. The **2.0mm Wire Guide** was effective for guide wire placement: 1 2 3 4 5
20. Please share any other observations or comments:
