

OsteoCentric

UnifiMI Fasteners & Integrated Locking Distal Fibula Plates

Designed to provide improved construct stability

Fasteners provide on and off-axis load-resistance with the bone

Ultra-low construct profile
1.7mm thickness

Distal holes allow flexibility between locking and non-locking fasteners

Multiplanar Performance in a Locking Construct

A cadaveric study in geriatric bone shows the following:

OsteoCentric UnifiMI fasteners have interlocking screw threads that are multiplanar and designed to resist multidirectional load compared to locking screws with the traditional buttress threads designed primarily to resist coaxial pull out force.

Distal Fibula Set Featuring:

Fastener	Length	Locking
2.7mm Fastener	10-32mm, 2mm increments	N
3.3mm Fastener	12-22mm, 2mm increments	N
3.3mm Locking Fastener	12-22mm, 2mm increments	Y
3.5mm Fastener	10-60mm, 2mm increments	N

Plates (Available in Right and Left)	Length	Number of Holes
2.7mm/3.5mm Locking Lateral Distal Fibula Plate	70mm	4
2.7mm/3.5mm Locking Lateral Distal Fibula Plate	80mm	5
2.7mm/3.5mm Locking Lateral Distal Fibula Plate	90mm	6
2.7mm/3.5mm Locking Lateral Distal Fibula Plate	100mm	7
2.7mm/3.5mm Locking Lateral Distal Fibula Plate	120mm	9
2.7mm/3.5mm Locking Lateral Distal Fibula Plate	140mm	11
