

OsteoCentric

Unifi 3.5mm Long Screw Fastener Set

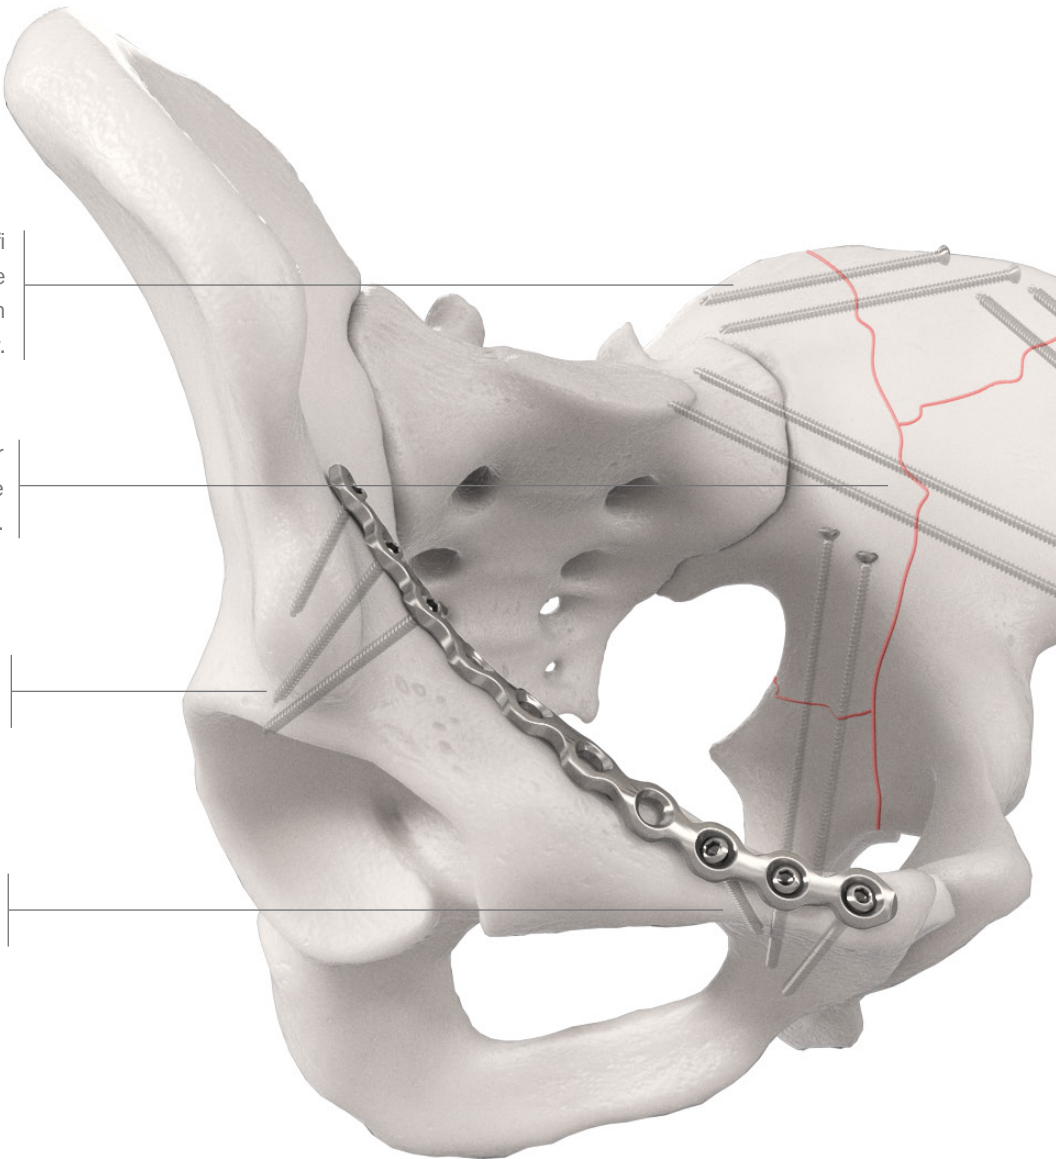

Superior stability performance in multi-axial load environments

First ever long fastener featuring Unifi technology to mechanically integrate with the bone to empower surgeons with instant primary stability.

Unifi technology resists multiplanar and multidirectional loads to create Integrated Fixation.

Maintains purchase strength during and after cyclic loading.

Reduced toggle and implant displacement.

3.5 MM LONG SCREW FASTENERS:

Part Number

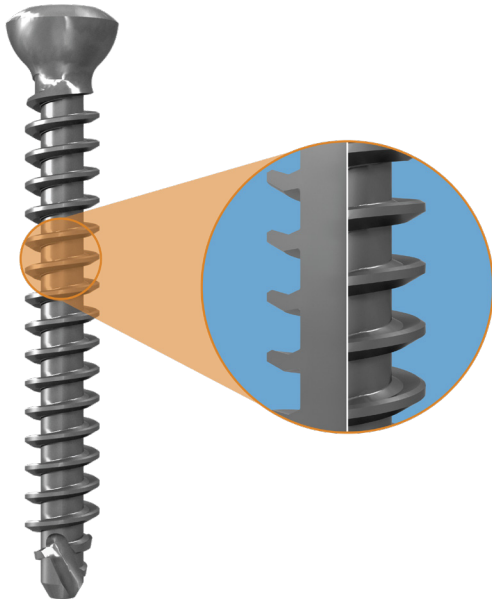

335-1052-88

335-1090-1130

Length

52-88mm, 2 mm increments

90-130mm, 5 mm increments

INSTRUMENTS

110028	3.5mm Drill Bit, 110mm
110040	2.5mm Drill Bit, 200mm, Calibrated
110104	Long 2.5mm Hex Driver AO
110206	Depth Gauge , 150mm
110454	3.5mm Cortical Screw Tap, 200mm
110701	2.5mm Hex Driver Sleeve
110703	Long 2.5mm Hex Driver, Fixed Silicone Handle 300mm
110705	SCREW HOLDING FORCEPS
